GOLDEN CIRCLE FOODS

Golden Circle Foods

WE LOVE ASIAN CUISINE

Premium Ready-To-Cook Products for
Foodservice & Retail

About
Golden Circle Foods

Golden Circle Foods develops and supplies premium Asian-inspired ready-to-cook foods for retailers and foodservice customers. Our focus on Asia is rooted in a genuine appreciation for the region's rich culinary heritage, with ad strong focus on Japan, Korea, China, Thailand, and Vietnam as key areas of inspiration.

We combine authentic flavours and ingredients with convenient formats designed for the way people shop, cook, and eat today.

Golden Circle Foods was launched in 2026, following nearly 20 years of experience in the frozen seafood industry. The brand was developed in close cooperation with our long-term partner, with whom we have worked throughout this period. Our partner has extensive experience across frozen fish and seafood as well as ready-to-cook products, including dumplings produced through joint ventures with well-established Japanese manufacturers.

Our approach is practical and market-driven: strong product concepts, dependable production, large-volume delivery, and products that are easy to prepare both at home and in professional kitchens.

By combining our European market knowledge with our long-standing Asian production partnerships, we aim to develop products that bring the culinary traditions of Asia closer to modern consumers.
